IMAP – Deployment

• Looking to NCAB/sysadmins to support IMAP client configuration for their group/section.
• Intended primarily for heavy travelers/remote workers, i.e. not all client machines (desktops) will need to be supported.
• IMAP will not be available to visitors
• NCAB volunteers needed to test IMAP in June
• Barring any problems during the testing phase, roll out IMAP in July
IMAP - Questions for NCAB

• How would you like to see the service rolled out? Announcement in Staff notes, other?
• Do divisions have a way to push a config to email clients?
• What are the most popular email clients?
