The Department of Atmospheric Sciences at Texas A&M University is seeking applications for a tenure-track position at the assistant professor level in the field of weather analysis and forecasting. Candidates are sought with research expertise in one or more of the following areas: synoptic meteorology, mesoscale meteorology, and forecasting techniques. Candidates focusing on hurricanes or other forms of severe weather are of particular interest. A Ph. D. in atmospheric sciences or a related field is required at the time of appointment. Postdoctoral experience is desirable, but is not required. The successful candidate will be expected to maintain a prominent research program and to teach courses at the undergraduate and graduate levels.

The Department of Atmospheric Sciences is one of the largest such departments in the world, offering degree programs at all levels and research activities across the full spectrum of atmospheric sciences. Among the resources available for teaching and research are the ADRAD Doppler radar and access to the SMART-R mobile radar facility, as well as the TAMU Supercomputing Center.

Texas A&M University is an affirmative action/equal opportunity employer committed to diversity at all levels, and the University offers an extensive spousal accommodation program. It is the policy of Texas A&M University that in all aspects of its operations each person shall be considered solely on the basis of qualifications, without regard to race, color, sex, religion, national origin, age, disabilities, or veteran status. State law requires that you be informed that you are entitled to (1) request to be informed about the information collected about yourself (with a few exceptions as provided by law); (2) receive and review that information; and (3) have the information corrected at no charge.

To apply, please send a CV, statement of research and teaching interests, and names and contact information for at least three references to:

R. Saravanan  
Chair, Faculty Search Committee  
Department of Atmospheric Sciences  
Texas A&M University  
College Station, TX 77843-3150  
sarava@tamu.edu

The position will remain open until a suitable candidate is found. Initial review of applications will begin on November 15, 2011.
