

2020 UCAR Next Generation Fellowship Application Outline

Do not submit this document in place of submitting the online application form.

Name (First and Last):

Phone:

Email:

University currently attending:

Year of graduate school:

Undergraduate degree:

Provide a statement outlining your career goals and how this fellowship will help you achieve your goals. (250 words max)

Please talk about how the power and/or privilege (or lack thereof) associated with your social identities (e.g. race, gender identity, sexual orientation, veteran, socioeconomic status, disability status, or first generation student) have shaped and impacted your experiences in science. (250 words max)

Indicate which fellowship you are applying for:

- Earth System Science Fellowship
- Diversity & Inclusion Fellowship
- Public Policy Fellowship

For the Atmospheric & Related Science Fellowship only answer the following:

Describe your research plan and how a fellowship at NCAR|UCAR would support your research. (500 words max)

If selected, is there a particular scientist or group that you would like to work with at NCAR or UCP?

For Diversity & Inclusion Fellowship only answer the following:

This fellowship experience is recommended for people who are planning to move into DEI work as a career (although we are open to people planning to stay in a career in science research). Describe your commitment to increasing diversity, equity, and inclusion in the atmospheric and related Earth system sciences and the role you see yourself playing in making progress toward these goals.

If selected for the DEI Fellowship what ideas (or plans) do you have for work that you would like to do during your two summers at UCAR? How do you see this work aligning with UCAR's DEI Strategic Plan (<https://www.ucar.edu/sites/default/files/documents/related-links/2020-01/UCAR%20DEI%20Strategic%20Plan%20Approved.pdf>)? How does this relate to

your future career goals? What specific support or mentoring would you want from the staff in ODEI? (~1000 words or less/ 6600 characters)

For the Public Policy Fellowship only answer the following:

Describe the role of the fellowship in your career path (choose one): (A) If you intend to pursue a career as a scientist, how do you envision that a public policy experience can further your capacity to conceive of and conduct science? OR (B) If you intend to pursue a career as a public policy professional, what graduate work are you pursuing now that will best enable this career path? (500 words max)

And

Describe how/why diversity, equity, and inclusion within the science policy community can yield better public policy? (500 words max)

Additional Information required for each fellowship application submitted:

- Two letters of recommendation
