

Membership Renewal Application

University _____

Member Representative 1 _____

Member Representative 2 _____

Application Submitter _____

Email of Application Submitter _____

**If either Member Representative is a change from the current representatives on file with UCAR, please have that change noted in the letter of support from the university president or designee.*

Program Information

List the departments and programs at your institution that are engaged in atmospheric or Earth system sciences.
Examples of Earth system sciences include environmental science, physics, biology, ecology, geology, geography, engineering, oceanography, hydrology, space science, etc.

Indicate the total number of tenure-track and non-tenure-track faculty in the departments and programs listed above who are involved in atmospheric or Earth system sciences.

List the relevant degrees, certificates, and other educational programs offered in the atmospheric or Earth system sciences at your institution.

How many undergraduate degrees were awarded in atmospheric or Earth system sciences during the last eight years?

How many graduate degrees were awarded in atmospheric or Earth system sciences during the last eight years?

Progress in Atmospheric and Earth System Sciences

Indicate your institution's progress and contributions in the atmospheric and related sciences within the last eight years. Check all that apply.

- Produced refereed and/or non-refereed publications
- Produced textbooks or other teaching materials
- Received external funding
- Participated in scientific societies
- Other, explain below

Participation in UCAR Activities

How many of the last eight Annual Members Meetings has at least one Member Representative from your institution attended?

List the UCAR, NCAR, and/or UCP committees that your faculty and staff have served on during the last eight years.

Briefly list examples of collaborative research activities and other engagement with UCAR/NCAR staff by your faculty, staff, and students during the last eight years. Include seminars, visits, resources, and facilities used by your faculty, staff, and students.

Provide any additional information on your Program, Progress or Participation you wish to share with the Membership Committee.

How would you like to engage with UCAR, NCAR, and/or UCP and other member institutions in the future?
